

YUFIX®

By Chem-Crete

YUFIX® seals vertical concrete, masonry, and stone against moisture and water ingress.

As a patented, crystalline technology, this product will meet or exceed the requirements of your most demanding projects. This technology provides long-lasting, breathable protection not found in other products. Superior to typical sealers, this protection does not require a chemical reaction or a moisture-free subsurface. No other product in the market offers this type of protection. Yufix is the product of choice for sealing professionals.

- Deep Penetrating and Breathable
- Long-Lasting Sealing and Water Repellency
- Eliminates or Reduces Damage Caused by Repeated Freeze and Thaw Cycles
- Protects Reinforcing Steel Against Corrosion
- Eliminates or Reduces Efflorescence
- Environmentally Friendly (No VOC, No Odor, No Fume)
