

CONCLEAN CCC060

**Multipurpose, Bio-degradable Water-soluble Detergent
& Degreasing Agent**

PRODUCT DESCRIPTION

CONCLEAN CCC060 is a multi-purpose, penetrating, bio-degradable, and water-soluble detergent and degreasing agent. It is composed of an alkaline based degreaser with specially designed penetrating agents.

CONCLEAN CCC060 attacks the molecular structure of greases, oils, dirt, polymers and fats to break down the adhesiveness of these materials. CONCLEAN CCC060 emulsifies attacked materials which allow them to be easily removed and rinsed-off with water.

CONCLEAN CCC060 is formulated to clean concrete, metal surfaces, vinyl floors, marble, granite, limestone, and many other substrates.

CONCLEAN CCC060 is recommended to be used after the use of an acid etching on the concrete to promote additional cleaning and to neutralize the acid which provides the proper pH required for substrate to receive further protective treatments.

CONCLEAN CCC060 is a 100% synthetic cleaner and is completely non-flammable. It is non-fuming and safe on skin.

FIELDS OF APPLICATION

- Pre-treatment of concrete floors prior to application of surface coatings, lay-ups, etc. in:
 - Power and Desalination Plants.
 - Warehouses.
 - Factories.
 - Industrial Plants.
 - Cleaning of equipment for removing contaminations
- Cleaning of bio-mass on substrates prior to application of sealers and coatings.
- Cleaning of moulds and form work from contaminants.
- Cleaning of stones from contaminants in heritage buildings.

PRODUCT FEATURES

- Single component and ready-to-use.
- Water soluble detergent.
- Bio degradable.
- No fumes and Non-toxic.
- Non-flammable.

- Safe on skin.
- Economical and easy application.
- Do not attack treated concrete, metal, surfaces, etc.

PACKAGING

Product	Packaging
CONCLEAN CCC060	1 GAL (3.785 LITER) JUG
	5 GAL (18.925 LITER) PAIL
	55 GAL (208 LITER) DRUM

TECHNICAL DATA

Density, Lb/Gal (kg/L)	8.86 (1.065)
Freeze Temperature, °F (°C)	25 (-4)
Boiling Point, °F (°C)	200 (93)
Freeze Harm	None
Solvent for clean-up	Water
Color	Transparent blue
Odor	Soapy
Toxicity	None
Flammability	None
Fumes During Treatment	None
Environmental Hazards	None

CONCLEAN CCC060 is registered with the US Department of Agriculture for use in food plants as a general cleaner for floors and walls.

Applicable Standards: USDA registration

APPLICATION DATA

Surface Preparation: The concrete surface to be cleaned should be free of any substance or coverings, which may interfere with the proper application and penetration of CONCLEAN CCC060. Protect adjoining work from spillage, blow over, etc.

Application:

- Apply CONCLEAN 060 evenly onto the substrate at a rate of 245 – 300 ft² per Gallon (6 – 7.5 m² per liter), using a low-pressure hand spray assembly or by decanting and spreading with broom or mop.
- Allow the concrete or treated substrate to be soaked for approximately two hours in order to clean and emulsify grease, oils, fats, etc. The treatment period may vary according to the actual substrate condition encountered.
- Agitate with a stiff bristle brush, broom or power floor-scrubbing machine if desired.

- Rinse emulsified solution from the surface with high temperature/high pressure water spray system or with fresh water.
- Repeat above steps for additional cleaning requirements or heavy grease conditions.

Coverage: Coverage of CONCLEAN CCC060 depends on the extent of contamination. On an average approximately 245 – 300 ft² per Gallon (6 – 7.5 m² per liter) can be taken for estimation purposes.

STORAGE

The product can be stored for 2 years in a cool and dry place. Protect from direct sunlight.

CLEANING

Always clean tools, equipment and substrate with clean water immediately following their use.

SAFETY PRECAUTIONS

Keep out of reach of children, animals, etc.

Skin: Product acts as a de-fatting agent and can cause a slight skin irritation. Flush with clean water.

Eye: Flush immediately with fresh water for at least 25 minutes and seek medical attention.

Ingestion: Drink water, then a solution of water and vinegar or acidic fruit juice. Do not induce vomiting. Seek medical attention.

Clothing: Always wear protective safety wear as common with any chemical applications. Rubber gloves, footwear, goggle, paper mask are recommended.

TECHNICAL ASSISTANCE
